## SUMMARY

---

### Passionate Programmer | Cybersecurity Enthusiast | Full-Stack Developer | Security-Focused Developer

Passionate programmer with a strong interest in cybersecurity (SOC Analysis, Ethical Hacking, vulnerability analysis) and Python full-stack development. I thrive on solving challenges, building secure and scalable applications, and exploring innovative solutions through hackathons and collaborative projects. Committed to continuous learning and eager to gain hands-on industry experience to make a meaningful impact in the software and security domain.

## SKILLS

---

<b>Security Tools:</b>	Wireshark, Nmap, Metasploit, Burp Suite, Ghost-Track
<b>Backend:</b>	Python, SQL
<b>Frontend:</b>	HTML, CSS, JavaScript
<b>Frameworks:</b>	Django, Flask, Bootstrap
<b>Databases:</b>	MySQL
<b>Soft Skills:</b>	Team Player, Bias for Action, Deliver Results

## PROJECTS

---

### Voice Assistant with GUI

- Designed and implemented a voice assistant with a sleek Python-based GUI, enabling real-time spoken commands and interactive responses. Used `speech_recognition`, `pyttsx3`, `wikipedia`, `webbrowser`, and `tkinter` for speech, text-to-speech, info retrieval, web automation, and user interface

### Password Generator Using Python

- Developed a Python program that generates secure, random passwords with customizable length and count, ensuring flexibility for users. Using Python libraries such as `random`, `string`, and `secrets` for strong randomness and robust password creation.

## EDUCATION

---

2022 - 2026	Bachelor's Degree at <b>KL University, Hyderabad</b>	(GPA: 8.53/10.0)
2020 - 2022	Intermediate at <b>Little Flower Junior College, TSBIE</b>	(GPA: 9.21/10.0)
2020	Schooling at <b>Johnson Grammar School, ICSE</b>	(GPA: 8.38/10.0)

## CERTIFICATIONS

---

**Certified Ethical Hacker (CEH) v13**  
**RedHat Enterprise Application Developer**  
**Automation Anywhere & RPA**
